Quiz #3 of Web Technologies, FA24 G1, Dec. 2, 2024 **[10 Marks]**

Reg. ID, Name _____, _____

Question 1: Assume *books.json* file contains array of objects in JSON format, where each object has id, title, and author property. Assume below is already defined in web page:

```
<input type=text id=book_id><button id='load'>Load</button>
<input type=text id=title>
<input type=text id=author>
```

Write JavaScript such that when user enter id of a book in book_id field and click the 'load' button, it should make AJAX call to books.json and populate 'title' and 'author' input fields of the entered book id.
