Quiz #4 of Web Technologies, FA24 G2, Dec. 18, 2024 **[10 Marks]**

Reg. ID, Name _____, _____

Question 1: Write GET request handler for URL "/display-query-string-and-cookies". It shall display all request parameters names and values (sent in query string) and cookies' names and values using EJS template (named display.ejs). You shall write code of display.ejs file too. Assume related middleware are already setup, so you just need to write the handler code.
