Quiz #2 of Web Technologies, FA25, Oct. 20, 2025 **[10 Marks]**

Reg. ID, Name, Section _____, _____, _G2_

Question 1: CLO 2: <*Demonstrate the capabilities for developing professional front-end using client-side technologies.*>

Question 1.1: Consider below CSS, write the width of content area of the element?

```
div { box-sizing: border-box;
padding:20px;
border:5px solid brown;
margin:10px;
width:200px;
}
```

Answer: _____

Question 1.2: Define CSS for class named alpha such that when it's applied on flex items, each item should take equal width, irrespective of the item content size. (Assume the container is flex with direction row).

```
.alpha{

}
```

Question 1.3: Consider below defined CSS. Define width of container such that all items should fit inside the container. **Assume 3 div with class item are defined inside the container.** When margin, padding, border are not defined, assume it as 0.

```
*{
   box-sizing: border-box;
}
.container{
   width: _______px;
   padding: 25px;
}
.item {
   width: 200px;
   border:10px solid lightgray;
}
```

Questions 1.4: Consider below HTML/CSS, by how many pixels each element would grow?

```
<div class="container">
  <div class="item item1">Item 1</div>
  <div class="item item2"></div>
  <div class="item item3"></div>
</div>
.container {
  display: flex;
  width: 1200px;
  border: 1px solid black;
}
.item {
  flex-grow: 1;
  border: 1px solid blue;
  padding: 5px;
}
.item1 {
  /* assume content would take 50px */
}
.item2 {
  width: 100px;
}
.item3 {
  flex-basis: 150px;
}
```

Item 1: _____ px

Item 2: _____ px

Item 3: _____ px
